

The following announcement is asking specifically for colonels (or lieutenant colonels who have already been selected by the USAR O-6 Board) to potentially serve as Division Chiefs in the Mobilization Command. I am seeking high quality Colonel M-day officers that live within a reasonable distance of the Pentagon.

The Mobilization Augmentation Command of the DCARNG, was the first unit activated in September, 2001 with a mission of augmenting both the Army Operations Center in the Pentagon and the Emergency Operations Center in the ARNG Readiness Center. Although we formally demobed in 2002, we continue to support the AOC/EOC missions with over 150 full time TTAD and ADSW as well as M-day officer and NCOs. This unit directly supports the "heartbeat of the Army". **Please note that this announcement is for M-day positions ONLY. It is NOT for full time positions.**

These positions are branch immaterial and are very competitive. The following attributes outline the general expectations. All candidates must have:

1. Top Secret clearance (or be capable of obtaining)
2. Operations experience;
3. Excellent communication skills (both verbal and written); and
4. A competitive military bio with a successful battalion command.
5. War College preferred.
6. **Colonels are preferred over promotable lieutenant colonels. LTCs who are eligible for unit vacancy promotions will not be considered. LTCs MUST be on either the standing or soon to be released O6 USAR Promotion List.**
7. Must have at least 30 months (2 1/2 years) until their Mandatory Removal Date (MRD).

If you are a colonel presently serving in the Army National Guard, Army Reserve, or the IRR that live in the greater Washington DC metro area (or are moving here) please have them contact me at (703) 607-9516 (randy.manner@us.army.mil).

COL Randy Manner

Commander, Mobilization Augmentation Command

Duty: 703.607.9516

Fax: 703.607.7418
